FARMERS WILL HEAR STAUFFER

Congressman S. Walter Stauffer, York, will be the principal speaker at a meeting of farmers from Adams, Cumberland and York Counties in the Biglerville Community Hall on Friday evening, May 15, at 8 o'clock. The meeting is being sponsored by the Farmers' Associations of the three-county area, and will be open to the public.

The purpose of the meeting is to give farm people an opportunity to become acquainted with their congressman and to discuss with him legislation which affects farmers.

In addition to Congressman Stauffer, the members of the Pennsylvania General Assembly from the three counties have also been invited to attend.

The Farmers' Association is a bi-partisan organization and does not endorse the platforms of any political party. "However," says C. M. Wilson, state secretary of the association, "farm people should take a more active interest in the legislative affairs of their country."

"We think meetings such as the one scheduled at Biglerville are of extreme value to farm people. It helps them to become acquainted with their representatives and also it helps them to become better acquainted with important issues at the state and national levels."

TANK CORPS OFFICERS HERE

Officers of Co. A, 304th Battalion of the Tank Corps which trained at Camp Colt here in 1918 held their first reunion since World War I in Gettysburg today, with a dinner at the Hotel Gettysburg and a visit to the battlefield and the old Camp Colt area.

The company in 1918 had 21 officers. Only six of these were here today, all of them lieutenants in 1918. Dr. and Mrs. Grover C. Jones, Macon, Ga.; Mr. and Mrs. John (Jack) Felton, Ardmore; Mr. and Mrs. Henry Mock, Philadelphia; Mr. and Mrs. Eugene Frisbie, Ft. Dodge, Iowa; Mr. and Mrs. Hugo Johnson, Greenfield, Mass.; and Walter Wylie, Chicago.

They said a number of the other officers were dead, several could not be located and others were ill or for other reasons could not attend the reunion.

Mr. Felton is the only one of the six former officers here today who has visited Gettysburg in the 35 years since they were at Camp Colt. Captain Dwight D. Eisenhower, later general, and now President of the United States, was camp commander. He was unable to attend.

The group said plans were being discussed for a reunion in 1955 of all the officers and men of Co. A that can be reached.

Weidner, 32, of Gardner's, a mile north of Gettysburg on the Biglerville Rd. at 7:40 p.m. Friday, is in the Adams County Jail awaiting a hearing this afternoon on a charge of leaving the scene of an accident without revealing his identity.

State police said Riddle had stopped to pick up a hitch-hiker, when his auto was struck in the left rear by Weidner's car. Riddle, police said, drove away. A message was sent to state police of the Carlisle Barracks, and Riddle was stopped in Carlisle. State police here returned him to Adams County. The charge was filed before Justice of the Peace John H. Basehore.

William Jesse Haycraft, 57, of Taneytown R. 1, arrested by state police at 8:20 p.m. Friday on the Gettysburg-Littlestown Rd. on a charge of driving an automobile while under the influence of intoxicants, was committed to the Adams County Jail by Justice of the Peace Robert P. Allies Ask Clarification Of Reds' Prisoner Exchange Plan

PANMUNJOM (AP)—Allied truce negotiators today asked question after question aimed at forcing the Communists to spell out in detail their compromise prisoner exchange plan and said "we must know the answers" before the proposal could be considered further.

Lt. Gen. William K. Harrison Jr. told newsmen after the 32-minute session that his barrage of questions did not mean the U. N. Command had accepted the Red plan as a basis for negotiations.

Harrison's detailed questioning was centered on the Reds' proposal to have a five-nation neutral repatriation commission take custody of the 48,500 Red prisoners who refuse to return to communism.

"How would decisions be reached? Majority vote? Is there a veto?" Harrison asked the Communist negotiators.

The Reds, in their sweeping, eight-point proposal to settle the prisoner deadlock—the last major block to a Korean armistice, proposed that the commission consist of Poland, Czechoslovakia, Sweden, India and Switzerland.

Harrison indicated the U. N. Command will not accept the Reds' proposal that eventual disposition of prisoners who refuse to go home after "explanations" by their own side in neutral camps be left to a postwar political conference.

Not A Final Solution
He asked how the new Red proposal overcomes Allied objections to the Communists' April 26 plan "by which prisoners could be detained indefinitely if your side so desires."

"We showed that, being denied any alternative to repatriation or continued captivity, the prisoners could, under that proposal be coerced into accepting repatriation," Harrison said. "We showed that the proposal did not constitute a final solution of this problem, in that it did not provide for the disposition of those prisoners who do not avail themselves of their right to be repatriated."

Adjourn To Sunday
Harrison asked if the new proposal was "any more than an agreement to defer the final solution of the prisoner of war question until some later date?"

"Will you indicate how the current proposal cures these defects?"

Harrison also asked how the commission would supervise POWs and which languages would be used by the commission.

The meeting was adjourned until 1 a. m. Sunday (9 p. m. EST Saturday) after the Reds asked for a recess.

LIBRARY WILL BOOST VACATION USE OF BOOKS

With book loans from the Adams County Free Library continuing to run above the 17,000 mark for the third consecutive month, the library is taking steps to bolster summer circulation which previously has dropped off sharply when bookmobile service to the schools ends in May.

Mrs. Mary S. Wilson, county librarian, told the board members at their May meeting Friday evening at the main library on E. High St., that juvenile books will be stocked at the library's branches and rural book stations during the summer months for the convenience of young readers who cannot come to the main library to make their loans during vacation months.

An indication that some of the school youngsters will make use of such an opportunity was found in a letter read to the board by Mrs. Wilson from "The New Oxford First Graders. It said:

"Dear Library Friends,
"We have enjoyed our library books very much. Thank you for sharing them with us. We will go to the New Oxford branch this summer."

17,787 Loans
Mrs. Wilson's report for April showed a total of 17,787 loans, a new high for any month in library history here. It topped the mark set in March at 17,635 and last month also saw a new high for loans made on a single day. Previously a peak of 200 loans in one day had stood since last August but on one Tuesday in April, the library handled 203 loans, the librarian announced.

President William M. Lott presided and announced the appointment of this finance committee: C. P. Keefer, Dean Asquith, Mrs. Dora Ford and Miss Ann Faber. The committee is to consider means of financing the painting of the exterior of the library building, and plans for a membership and finance campaign in the fall.

William C. Darrah, Gettysburg R. 1, author and educator, who was appointed to membership on the board this week by the county commissioners, was present for his first library meeting. The board accepted with regret the resignation of Miss Mildred A. Miller, East Berlin, as a member of the board. Inability to attend board meetings was given by Miss Miller as her reason.

Besides President Lott and Mrs. Wilson, these directors attended: Mrs. Ira Henderson, Mr. Darrah, Mrs. Kenneth Snook, Mr. Asquith, Mrs. C. T. Ziegler, Mrs. Ford, Keefer and Miss Faber.

The play has been praised in its road show presentations and Broadway run by New York newspaper critics and critics in other cities.

MARTINS HOME FROM N. AFRICA

George R. Martin, 40 W. High St., and Mrs. Martin returned Friday afternoon from a ten week's trip to Casablanca, where they visited their son and daughter-in-law, Mr. and Mrs. George R. Martin Jr. The former is communications officer at an airfield at Casablanca.

The Martins left Gettysburg on March and made the trip to Casablanca by air. Their plane landed at Gander, Newfoundland, with one motor out of commission. They were delayed there 12 hours while a new engine was installed. A heavy snow fell during the night.

The return trip was made on a freighter which took five weeks from Casablanca, to Wilmington, Del., during which one of its Diesel engines failed and had to be repaired. The ship proceeded at half speed on the other engine.

Martin said.

Visited Spain, Italy, Paris
Leaving Casablanca, the freighter called at ports along the Mediterranean, returning to Casablanca before loading freight for the trip across the Atlantic. Mr. and Mrs. Martin visited Genoa, Naples and ports in Spain while the ship loaded and unloaded. They also spent three days in Paris.

Mr. Martin described Casablanca as a new city of modern buildings and an old city where the Arabs live much as they have for centuries. The new city has been built by the French, has modern homes, hotels and stores and is very clean, he said. The hotels rank with the best in this country, he said.

While in Casablanca Mr. and Mrs. Martin attended an Arabic wedding and ate Arabic cooking at a dinner at an Arab home.

HUNDREDS SEE SCHOOL DISPLAY

Hundreds of parents and friends of grade school pupils attended the "open house" at High St., Meade and Lincoln school buildings Thursday evening and inspected art and other classroom work on display. Members of the teaching staff were on hand to greet the parents and explain the displays.

It was estimated the upwards of 250 visited each of the buildings. The art worked presented a colorful showing. Displaying many new ideas, the art work of the various grades was exhibited in the 25 classrooms in the three buildings. Among the highlights were Sixth grade pictures of a "headache," a three-dimensional fish pond display of wire, "rocks and seaweed" internally lighted at the Lincoln School, a papier-mache tree with birds and nests and an exhibit of spring hat creations based upon old hats of the pupils' mothers at Meade School. At High St. the visitors enjoyed some First grade portraits of Richard Krick, school art supervisor under whose direction the annual display was arranged with the help of the teaching staffs.

There were clowns of an assortment of designs, some of them made from colored yarn; cut paper dream cows free expression drawings and paintings and "mobiles expressing moving objects in space" suspended from class room and hall chandeliers.

"I Walk Alone"

Dana Andrews, well known Hollywood dramatic actor, portrays the FBI Undercover Agent Matt Cretic in "I Walk Alone," the first in a series of Sunday night broadcasts of "I Was A Communist for the FBI" over station WGFT.

Matt attends a Communist meeting addressed by a "Top" Comrade, Comrade Revchenko who gives a letter to members and instructs them to memorize everything in it. Matt calls FBI contact after the meeting and tells him he is sending the letter but wants it back immediately. Next day Revchenko orders that all letters be returned within two hours.

Horvath, another party member, tells Matt and suggests going home with Matt to get his copy. Matt is able to make a phone call presumably to his home, but actually to the FBI. He is told that the letter has been sent to Washington and it is impossible to obtain it on such a short notice.

Revchenko accepts no excuses and sends Horvath with Matt to get the letter. Matt finds an opportunity to instruct his mother to say the letter has been burned, and that is the excuse Horvath gives to Revchenko. After an unpleasant session with Revchenko, Matt goes home to find that two men had visited his mother and told her that Matt was working with them, supposedly for the FBI, and was not really a Communist. So well had he convinced his family that he was a party member, however, that she insisted that he was a Communist and told them they were wrong. The first broadcast will be at 7 o'clock Sunday night.

ATOMIC FLASH OUT - DAZZLES THE SUN FRIDAY

LAS VEGAS, Nev. (AP)—An atomic test device exploded with a flash that out-dazzled the daylight at 10:30 a. m. (EST) today at the Nevada Proving Grounds.

The lingering flash, plainly visible in this resort-gambling city 75 miles away, indicated that this, the eighth detonation in the Atomic Energy Commission's spring series was one of the brightest.

The atomic mushroom cloud formed immediately.

Beautiful Cloud

Two and a half minutes after the detonation a beautiful cloud soared upward to about 25,000 feet. First indications were that the blast took place at Frenchman Flat, and that it was a tower shot or an extremely low air drop.

The tremor from the shot reached Las Vegas about five minutes afterward.

Elaborate preparations for obtaining information on blast effects on various facilities were set up but the AEC did not immediately indicate which were affected by Friday's shot.

A transplanted pine forest, railroad trestles, vehicles and structures were on the proving grounds.

Fifteen congressmen were official witnesses for Friday's test in which 2,000 Army troops were dug in 9,800 yards away. Previously troops have been as close as 2,500 yards.

Watch your textures when you are planning a meal! Never serve a creamed meat or fish dish with a creamed vegetable. Don't serve a vegetable with a sauce when pot roast with gravy is the main course.

TOMORROW
If tomorrow did not hold
Some small bit worth pain of
gaining,
Then man's story had been told;
All strife over, dullness
reigning.
If to stay the way they are,
Things established were

There would be no goal afar
Worth its cost in hard
endeavor.
If there were no more to learn,
No small fact for some one

Nothing left from fame to earn,
All for death would here be

Today's Talk
By GEORGE MATTHEW ADAMS
ON BORROWING
I wonder who first initiated the idea of borrowing? Of course there are several different kinds of borrowing. The business man often has to borrow, but he does so with the full knowledge that it will be paid on a definite day. It becomes the life of commerce. But petty borrowing has no good purpose behind it. People borrow a book, an umbrella, foodstuffs and other things with no intention of ever returning.

There is a certain thing that we have to deal with in this life that is very important, and that is honor. If we become obligated to another by petty borrowing, we subtract from our honor and there is an immediate weakening of the back that can't be cured medically or any other way. We may have to pay later through the loss of a friend!

I like this line—Pay as you go, or else don't go! It never works out happily to mortgage one's honor. Give, if it's a worthy thing to do, but don't loan or borrow. Becoming obligated to a friend adds weight to the soil! Your aren't a free person any more.

In a very broad sense we are all borrowers. We borrow from nature, from books in the ideas that they inspire and from the good acts of others which we try to inculcate into good acts on our own part. We are debtors to scores of people whom we have never met, and whom we probably never shall meet. I wish it were possible for me to thank many an author for the inspiration and knowledge that I have borrowed from his example and creative skill. And I wish I could adequately thank people for what they unthinkingly loan to me from their store of common sense, kindness and character.

When we borrow intangible things our only obligation is to pass them on to others. Only in that way can we pay the obligation we owe. The love we get from others can only be paid with love. If we borrow love, it's only so that we can pay it back in full!

WANTS TO SEND VAN FLEET TO INDONESIANS
WASHINGTON (AP)—Sen. Knowland (R-Calif.) suggested today that Gen. James A. Van Fleet would "make a good man" to head a U. S. military mission to train native anti-Communist troops in Indochina.
Knowland, who heads the Senate GOP Policy Committee and is a member of the Foreign Relations Committee, said he does not believe Van Fleet's obvious differences with Gen. Omar N. Bradley over Korean policy should make any difference on such an assignment.

Millions Earmarked
Van Fleet, who led troops in Korea for 22 months, has said the war ought to be pushed to a decision because, he maintains, conditions there are more favorable to the Allies than to the Communists. Bradley, chairman of the Joint Chiefs of Staff, has said an all-out aggressive move might touch off the wrong war at the wrong time in the wrong place.
The Eisenhower administration has earmarked 400 million dollars in proposed new foreign aid funds for use in financing the training, equipping and even paying of troops fighting the Reds in Indochina.

Two Days Of Parleys
This is in addition to 60 million dollars in special aid Harold E. Stassen, the mutual security director, said yesterday has been transferred to the French government out of foreign aid money. Stassen said the French would use the money on their home finances, thereby releasing funds for Indochina use.

Stassen's announcement emphasizing the administration's concern with Indochina was followed later in the day by a joint statement from President Eisenhower and Prime Minister Louis St. Laurent of Canada.

They declared that Red aggression in Laos, the Indochina state being invaded by Vietnamese forces, casts doubt on Communist peace gestures elsewhere. The statement wound up two days of conference between Eisenhower and St. Laurent and their top aides.

Publication Of Book On Hiss Is Delayed
NEW YORK (AP)—Publication in this country of a new book on Alger Hiss, by Britain's former lord chancellor, has been postponed. Some 5,000 copies already distributed have been recalled.
The book—"The Strange Case of Alger Hiss" by Earl Jowitt, Britain's lord chancellor from 1945 to 1951—appeared last week in England.
Jowitt's book is a study of Hiss' second Federal Court perjury trial in the light of British trial procedure. Hiss was convicted at this trial in 1950 and is now serving a five-year prison term. A former U. S. State Department employee, he was accused of lying when he denied passing government secrets to a prewar Soviet spy ring.
While implying Hiss might not have been convicted in England, Jowitt expresses no specific opinion of his own as to whether Hiss was guilty.

H. FORD RELICS ARE REVEALED FOR MUSEUM
DETROIT (AP)—Another intimate portrait of the late Henry Ford as the writer of eloquent love letters, anxious job hunter, and collector of old clocks and music boxes was unveiled by his family Friday.
Friday's ceremony, another in the series commemorating Ford Motor Company's golden anniversary, followed Thursday's dedication of the Ford Motor Company archives in the late auto magnate's former home at Fair Lane, in nearby Dearborn.
Dedicated by Henry Ford II, Benson Ford and William C. Ford, the newest exhibition of the career of their grandfather is an extensive one in the Henry Ford Museum at Greenfield Village. It is an enormous collection of the more personal memorabilia of Henry Ford.

Restore Old Office
The exhibition includes a precise restoration of Ford's simple office in the Ford Motor Company's plant in Highland Park, adjoining Detroit. Another part of the exhibition is the camping table used on a series of trips Ford made with such friends as Harvey Firestone, Thomas Edison, John Burroughs, the naturalist, and on one occasion, President Warren G. Harding.

Letters in the collection show that Henry Ford met Clara Bryant at a New Year's Eve party in 1885. They show that he sent her many poems before their marriage and Valentines regularly through the 59 years of their married life that began in 1888.

The museum exhibition will be opened to the public commencing tomorrow.

ROSSEN, MOVIE PRODUCER, GAVE \$40,000 TO REDS
NEW YORK (AP)—Robert Rossen, award-winning Hollywood producer who hasn't had a job since he balked at House Red hunters' questioning two years ago, gave in penitently Thursday and admitted he once was a Communist.
He told the House Committee on Un-American Activities that during 10 years in the party—from 1937 to 1947—he contributed more than \$40,000 to Communist causes. Other movie figures perhaps gave equal sums, he said.
The 45-year-old Rossen said he had "done a lot of thinking" since "that fatal day in 1951" when he clashed with the committee.
At that time, he had said he was not a Communist, but he had refused to say if he ever had been.
Since then, he said, he had decided to cooperate.
"An individual cannot rely on his individual morality or pit himself against the good of his country," he said. "I don't believe you can be incriminated by telling the truth."
Rossen, producer of numerous topnotch pictures of the past decade including "All the King's Men" which won the 1949 Academy Award, said idealism led him into the party and also caused him to break with it.
"The same reasons for which you go into the party are the reasons for which you go out," he said. "The ideals you look for are just not there."
He said he found the Communists more interested in winning power for the party than in achieving idealistic ends.
"It took a long time to find out," he added.
He said conditions in the 1920's and the depression of the 1930's made him ripe for communism.
"I felt I was looking for new horizons, a new kind of society I could believe in and attach myself to in history, an historical movement," he said.
Another factor, he said, was that those who waged the most courageous fight for the Screen Writers Guild in 1936 turned out to be Communists. So when he was approached to join, he said, "I was not bashful—I was eager."
But he said he gradually grew disillusioned.
"The party's veneration for the masses of the people somehow or other never expressed itself in terms of the individual," he said.

Wants "Bold Lead" For Freer Trade
WASHINGTON (AP)—Canadian Prime Minister Louis St. Laurent Friday urged the United States to take a "bold lead" for freer foreign trade.
Canada, he said, greatly hopes the U. S. will pursue such a course in its tariff and related policies without any "backward steps."
"We cannot nibble at this corner here and knock out that piece there to protect some special interest without weakening the entire fabric," the prime minister said.
St. Laurent, here for two days of talks with President Eisenhower and other administration officials, stressed his country's concern over a possible shift in United States trade policy in a National Press Club address. He made plain that he had pressed the point, along with pleading for U. S. help in developing the St. Lawrence, in his talks here.

LONGSHOREMEN MAY BE OUSTED FROM AFL RANKS
NEW YORK (AP)—Possibility that the strife-torn International Longshoremen's Association (ILA) may be ousted from the AFL heightened today after metropolitan New York dock workers voted to retain the much condemned "shape-up" hiring system.
There also were predictions of mounting turmoil on the rackets-ridden waterfront.
The AFL Executive Council has ordered the ILA to clean up the piers, and get rid of the "shape-up" practice, or face expulsion from the parent body.

Charges of a frame-up election arose, even before results of the vote yesterday showed that New Jersey and New York dock hands

had voted 7,000 to 3,920 in favor of the "shape-up." There were 978 voided ballots.
Father John M. Corridan, a Jesuit priest active in the fight for waterfront reforms, said on a DuMont television program, "The Local Scene," that intimidation was used prior to the voting.
Under the shape-up, longshoremen are hired for a day's work by a pier boss who picks them out of the crowd of job hopefuls.
The system has been attacked at state and federal investigations as a breeder of rackets, of kick-backs to curry favor with the bosses, and of loan-sharking.

Billy Goodman's Homer Wins For Red Sox In 11-Inning Tilt With Yanks; Indians Edge Up

By BEN PHLEGAR
AP Sports Writer

Now that they've got the place to themselves those upstart Red Sox are creating quite a furor up in Boston, and they are giving the rest of the American League fits in the process.

Lou Boudreau's youth brigade figured to be at least a year or two away from being troublesome to the pennant contenders. But just look at the kids. They have won eight of their last 10 games and they are only a game and a half out of first place.

Fresh from a highly successful jaunt through the West the Sox came home last night and to the delight of a fine crowd of 33,055 fans grabbed a spectacular 2-1 verdict from the New York Yankees, their first success against the World Champions in 13 starts.

Homer By Goodman
Billy Goodman, one of the few faces Boston fans can recognize in the rejuvenated lineup, belted a four-line hugging homer over the right field wall with one out in the 11th inning to give Hector (Sonny) Brown the decision over Johnny Sain. Boston's other run also was a homer—Dic Gernert's fifth of the year.

Brown, a North Carolina right-hander, handcuffed the Yankees on seven singles, struck out five and walked only one man. The Cleveland Indians, sandwiched in between the Yankees and the Red Sox, pulled within three percentage points of the New York Yankees by whipping the stubborn St. Louis Browns, 7-4. Washington rallied in the closing innings to down Philadelphia, 10-7, and Chicago turned back Detroit, 7-2, in other American League action.

Braves Win At Home
A near capacity crowd of 30,293 turned out for Milwaukee's first major league night game and came away happy as the Braves bested the Chicago Cubs, 2-0, on Johnny Antonelli's four-hit pitching. The St. Louis Cardinals defeated Cincinnati, 5-3, in the only other National game that finished.

Philadelphia scored two quick runs against Brooklyn in a battle for first place in the National League but a spring thunderstorm that struck as the Dodgers came to bat in the first washed out the contest. The rain moved on north to the Polo Grounds and also halted the New York-Pittsburgh contest after an inning and a half. It was scoreless.

The Braves' victory kept their record perfect in their new Milwaukee home where, because of bad weather, they have been able to play only three games.

Idaville Blanks Mt. Holly Springs

Idaville won its second straight Cumberland County League game Friday evening by blanking Mt. Holly Springs 4-0 in the Idaville diamond. Bill Fuhrman fanned nine batters and permitted but four hits.

Score by innings:

Mt. Holly — 0 0 0 0 0 0 — 0 4 1
Idaville — 2 0 0 2 0 0 — 4 7 0
Batteries: Idaville, Fuhrman and Kopp; Mt. Holly, Murphy, Mentzer (4) and Whittier.

Plainfield Tops York Springs 8-0

The York Springs baseball team was the victim of a three-hit 8-0 shutout tossed by Don Ward, Plainfield, in a Bi-County League game played at Plainfield Friday evening.

Score by innings:

Only a hit batsman in the fifth inning prevented Lee Dugan, Biglerville High School hurler, turning in a perfect no-hit no-run game as the Cannons blanked York Springs 9-0 at York Springs Friday afternoon in an Adams County League game.

With two out in the fifth inning Dugan hit McGonnell, York Springs catcher, with a pitched ball and he was the only base runner for York Springs. The Biglerville junior right-hander whiffed 11 batters and did not walk a man in turning in his superb performance.

The victory was highly important to Dick Allison's Cannons as it kept them right in the race for the league title. Biglerville is now in third place, half a game back of Littlestown and but one game back of undefeated Bolling Springs.

Five postponed games remain to be played and it is likely the Biglerville-Bolling Springs tilt on May 19 may decide the title.

In Friday's game Biglerville tabbed three runs in the third, added five in the fifth and a lone tally in the sixth. The Cannons scored but four hits, all singles, off the combined offerings of King, the loser, Koons and Weigle.

RAMON FUENTES PUNCHES OUT 14TH VICTORY

NEW YORK, (AP)—Ramon Fuentes had his 14th straight victory today and a strong yen to mix with the top-ranking welterweights.

The 25-year-old ex-Marine racked up No. 14 at Al Wilson's expense last night with a unanimous ten-round decision at the St. Nicholas Arena.

Fuentes said he'd like to take on welterweight champion Kid Gavilan but being realistic he said he'd be happy to settle for Danny (Bang Bang) Womber right now. Womber gained an upset decision over Gavilan a week ago.

"I don't care who I fight," said the Los Angeles ex-leatherneck. "I couldn't get much work out on the coast. Nobody wants to fight me. I hope I don't scare them off here."

Was Eastern Debut

It was Fuentes' eastern debut and his first appearance on a coast to coast television network show. He impressed with a smooth, professional job to score his 21st victory against one loss. He baraged his lanky rival's body all through the bout and tossed enough left hooks and rights to the head to keep the Englewood, N.J., Negro befuddled.

The votes, all for Fuentes, were: Judge Arthur Susskind, 7-3; Referee Pete Scalo 5-4-1, and Judge Arthur Schwartz 5-3-2. The AP scorecard had Fuentes ahead, 6-3-1.

Rain and two scheduled ball games kept the crowd to about 1500 and the receipts to about \$3,500. Each fighter received \$3,600 for radio-TV.

An 11 to 5 favorite, Fuentes weighed 147 to Wilson's 146½.

Down 2 MIGs, Smash Troop Center In Korea

SEOUL, (AP)—U. S. Sabre jets—flying double duty as fighters and bombers—today shot down two Communist MIGs and smashed a big Red troop concentration center in Korea.

Thirty-six sleek, swept-wing Sabres, in one of their biggest strikes as fighter-bombers, flattened 45 buildings in a troop concentration area near the Panmunjom truce conference site the Air Force said. The attack followed by a few hours low-level sky battles deep in Northwest Korea which sent two Russian-built MIGs spinning to earth.

Guarding Bombers

The Sabre jets were guarding F-84 Thunderjet fighter-bombers which hit Red oil and ammunition dumps at Kuop, about 15 miles southeast of the Yalu River border city of Sinuiju. The Air Force said 13 buildings were destroyed. In its weekly summary issued today the Air Force said no Sabres were lost during the week ending Friday. Two Thunderjets were lost to other causes, probably engine trouble, the Air Force said.

Thirty U. S. B-29 Superforts Friday night dropped 130 tons of bombs on a trio of Red supply centers in North Korea, leaving fires visible for nearly 50 miles in their wake. Two of the targets were near Sinanju on the West Coast. The other was near the northeast port of Hungnam. Only skirmishes were reported along the quiet ground front.

Labor Scores In British Elections

LONDON (AP)—British Labor party officials last night labeled labor's landslide victory in local council elections throughout England and Wales a slap at Prime Minister Churchill's Conservative national government. Conservatives termed the results misleading.

Final returns from the polling which began Monday and ended Thursday showed:
Labor—gained 417 seats, lost 54.
Conservatives—gained 85, lost 335.
Liberals—gained 9, lost 13.
Independents—gained 28, lost 130.
Communists — gained 0, lost seven.

Laborite gains are seats captured from other parties or from independents. Laborite losses are former Labor seats captured by other parties or independents.

More than 7,000 seats were at stake in the campaign, fought mainly on local issues.

Riding with Russell

REG. U. S. PAT. OFF.
by FREDERICK C. RUSSELL
Member S.E.E.

Someone has taken the trouble to figure that the average car travels about 200 billboards per hour.

System Needed In Buying

Insurance agents have a plan which could be adopted by the car owner whenever he is faced with the need for buying service. Like buying insurance he should select the most important coverage first. It may seem extreme to picture an owner having the car waxed when the brakes need relining badly, but some of the situations are quite as illogical. Neglecting to check and lubricate front wheel bearings may throw the car into a bad accident, yet there are owners who prefer to put a motor tune-up ahead of more essential work on the car.

It is sometimes difficult deciding which jobs should come first, but here the judgment of a good mechanic is a valuable aid. He will recognize that not every case is the same. How you drive the car and where will have a bearing on his decision as to what work should properly come first. Facing a long fast tour most owners consider the advantages in buying a new set of tires, but in one case where the car was to be used in back country it was decided that the old tires were quite adequate and that it would be smart to replace the shock absorbers to protect the springs against breakage.

More Than Silence

Hydraulic tappets are not, as many suppose, merely something to take the click out of valve gear. They do this to a high degree, to be sure, but their main function is to help the valves operate more efficiently. For one thing, there is always zero clearance between the tappet and the valve stem regardless of engine temperature. This means that valves seat properly, never holding open and burning. Thus there is less risk of carbon being trapped around valve seats. One point not fully appreciated is the fact that because no one is trying to cut out tappet noise there is no damage to valves and their seats through incorrect adjustments.

Chrome Still A Problem

Removing chrome protectives seems to bother a lot of motorists. The coating becomes dull and starts to peel in spots, and the owner has trouble removing the rest so that he can clean the chrome and protect it again. Ordinarily the old protective coating can be removed with such solvents as acetone, benzene, xylene or lacquer thinner, applied with a clean

cloth. Be careful not to get any on painted surfaces. If you do, flush it off immediately with plenty of water.

Some cars were given chrome protection with baked-on enamel. To remove this it is necessary to use a special solvent for enamel. This is very injurious to painted portions of the car.

Mechanic Joe Speaking:

"While you can tell if the fuel pump is working by disconnecting the line to the carburetor and cranking the motor this is merely a rough guess at its efficiency. If gasoline flows from the end of the open line the pump is working but you do not know how well. In his shop a mechanic would disconnect the line from the gas tank and use a vacuum gauge on the pump to check its actual efficiency. Small pumps will show a reading of 12 inches vacuum, large ones 15 inches. This is with the engine running a little over idling speed. Any unevenness in reading indicates a bad diaphragm or leaky pump valves."

Just Shake Loose

We have been using flexibly mounted engines for some years yet few motorists fully appreciate the need for having the high tension wires firmly attached to the spark plugs. A lot of skipping is due merely to wires shaking loose, especially if cars are driven a lot in traffic where there are numerous changes in motor speed and more chance of the engine going through its period of vibration.

Back Into The Picture

Those who have tried helper springs in an effort to correct rear-end sag, and who have found that this makes the car ride a bit hard, should be interested in the revival of a type of helper spring which fits on the under-side of the rear portion of a leaf spring. I used a set similar to these on an earlier car and found it gave me considerable extra spring control without in any way interfering with the car's normal riding qualities. As I recall there was no action of the device until the spring was compressed beyond the usual deflections that would be encountered on a boulevard.

Now And Next Winter

Tuck this item away for next winter or for those cool summer nights or early mornings in the mountains when someone in the car demands heat:

One of the common causes of poor heating is clogged hoses to or from the heater. With circulation retarded the effect is the same as partially closing the shut off valve. Obstructions are especially likely to develop in heater hoses because water doesn't circulate under more than mild pressure.

Incidentally, I am one of many who do not shut off the flow of water to the car heater in summer. Thus the system always is

ready for action; and, in addition, the heater provides increased cooling capacity. An engine that is inclined to overheat will do better with the heater circulation valve not shut off.

Time To Replace Them

Whenever having the engine overhauled make sure your repairman considers the possible need for new valve springs. These springs tend to take a "set" after they have been in service for a number of years. Comparing the old springs with a new one will sometimes show up this condition. Old springs may be corroded so that they break. If the motor develops any tendency toward such breakage by all means replace them all. Incidentally, breakage often can be traced to carelessness in engine lubrication. If the motor doesn't work hard enough to burn off diluent in the oil the valve springs will suffer.

Three To Remember

When a clutch becomes grabby after the car has been driven some distance, and is normal in action after the engine cools off again, the indications are that the motor runs too hot. Heat is easily transferred to the clutch where it may cause binding through expansion.

It is easier with today's car to clean motor obstructions from the carburetor by accelerating the engine because mufflers offer less resistance. When mufflers were of the baffled type any sudden gunning of the engine may have helped clear the carburetor but if often loosened one of the muffler plates.

Sometimes strange car noises are due to buckled metal in the fenders, doors or other sheet metal parts of the body. Feel with your hand to see if there are any such dents and have them pounded out.

What's Your Trouble?

Q. How important is the tension of the spring of the moveable breaker arm in the distributor? J. J. N.

A. It has an influence on the life of the points as well as of the little fibre block which rides the shaft. In addition it is involved in spark advance.

Q. Do all of the power steering systems operate hydraulically? M. N. H.

A. No. One of them on a 1953 American car is a mechanical system.

Q. Why would the brakes on my car tend to grab at certain times yet work smoothly after I have used them freely? K. F. Jr.

A. Excluding cases where the lining may be subject to dampness the chances are that the action of the brakes in your case indicates brake fluid or grease on the linings.

Q. My car has a most peculiar

odor. Best description is that it smells like shoe polish. W. W. McB.

A. I think you will find that when they added fluid to the brake master cylinder's reservoir some of it spilled on the floor board or on the carpet. You'll get rid of it with ventilation. Or you might use one of the household deodorants.

Q. Are all the additives for the gas tank about the same chemical composition? H. L. J.

A. No. There is quite a difference. Additives to provide top cylinder lubrication are often just a light grade oil. Then there are the alcohols to prevent freezing of the water that may be in the gasoline. Third, there are the solvents intended to free gummy piston rings and valves.

Q. There is a cracking noise when I engage the clutch to start the car. Sounds as if something is dry. I have been told that this may be an indication that the clutch throwout bearing is about to fail. J. F.

A. I doubt it. Trouble with this bearing would show up when you declutch. In my opinion I think you will find that there is trouble with the universals, the rear springs or their shackles.

Q. Is there any way to tell whether intake valve guides are worn other than taking off the head and exposing the parts in question. The engine is idling poorly. D. McN.

A. Best test is with a vacuum gauge. If the pointer vibrates rapidly when the engine is idling you will have your clue.

Mr. Russell will answer questions regarding the safe care and operation of your car. Just address him at 254 Fern St., West Hartford, 7, Conn., and enclose stamped, self-addressed envelope for a personal reply. There is no charge.

Girl Must Choose Between Wealth And Man She Loves

NEW YORK (AP)—A pretty Park Avenue girl today faced this poignant choice: Did she want wealth? Or the man she loved?

With her 21st birthday just two weeks away, Jean L. Tanburn has received a court ruling that she must choose between one or the other.

She can't have both. Caught in this classic conflict between love and money, Miss Tanburn last night declined to comment on what she will do.

Provision In Will
If she goes ahead with her plans to marry Donelson M. Kelly Jr., she forfeits her rights to a \$10,000 cash inheritance and a \$6,500-a-year income from a \$675,000 trust fund.

The trying dilemma resulted from a provision in her great-grandfather's will that no descendant who marries a person "not of the Jewish faith and not of Jewish blood" can benefit from the will.

Kelly, a Princeton University senior, is not Jewish. He and Miss Tanburn, who attended Vassar, are engaged and planned to marry before he reports to the Army at Ft. Sill, Okla., next month.

USED VOICE TO DISCREDIT U. S.

PITTSBURGH (AP)—Charging the State Department too often treated the Voice of America agency "as an unwanted stepchild," Sen. Bourke B. Hickenlooper (R-Iowa) disclosed here Thursday that evidence pointed to an "actual conspiracy on the part of some persons" to employ Voice broadcasts "as a means of discrediting the United States."

Sen. Hickenlooper shared speaking honors with Democratic Sen. Estes Kefauver of Tennessee at the closing dinner meeting of the World Affairs Forum.

Addressing some 600 persons, Sen. Hickenlooper said: "I can't say whether this evidence is conclusive or not, but certainly some of it is very persuasive."

Sen. Kefauver forecast that America may find the Communist world more willing to negotiate after we have attained equal strength.
